

Overview:

The 16 Port Rackmount Transceiver Chassis 4.5U (model: 500923) is designed as a head-end cable management solution, allowing any combination of up to sixteen (16) MuxLab Transceivers to be installed in a standard 19" telecom relay rack. Head-end AV equipment such as DVD players, video servers and cable boxes may be installed in a local wiring closet and connected to the Cat5e/6 structured cabling system via a wide array of MuxLab Transceiver solutions. The Transceiver may be installed in either front or rear facing orientation depending on the application. Blank filler plates can be ordered separately in quantities of four (4) (P/N: 500924). Mounting brackets for mounting 16 Transceivers to the rack are included, but additional brackets can be ordered separately in quantities of four (4) (P/N: 500922).

Key Features:

- Supports up to 16 Transceivers
- Space efficient 4.5U high, fitting a 19" rack
- Supports front or rear facing orientation
- Includes bracket kits for 16 Transceivers and rack mounting hardware
- Provides for neat installation and cabling
- Blank filler plates (500924) and additional bracket kits (500922) sold separately

Applications:

- Commercial and residential AV systems
- Classroom projector systems
- Digital signage
- Boardroom systems
- Collaborative PC systems

Specifications	
Environment	Custom audio-video systems in a structured cabling environment.
Application	Head-end installations, audio-video rooms, telecom rooms.
